Glendive, MT 59330

Distance Nearest Occupied Building: 1 Miles **Release Contained:** Yes

Type of Incident: Ruptured hydraulic line on a Caterpillar Loader

Description of Released Contaminant: Hydraulic Fluid

Volume Spilled: 0.25 gallons **Ag Related:** No

EPA Extremely Hazardous Substance: No **Reported to NRC:** No

Cause of Incident:

Hydraulic line ruptured on a Caterpillar loader.

Risk Evaluation:

None

of Fatalities: 0 **# of Injuries:** 0 **Affected Medium:** 03 - soil

Potential Environmental Impacts:

Contaminated soil was promptly removed and bagged for disposal. Further environmental impacts are very unlikely.

Action Taken or Planned:

Spill was absorbed with pads and the contaminated soil was placed in a bag. The loader was also wiped clean with oil absorbing pads.

Wastes Disposal Location: IHD Solids Management, LLC landfill. (previously operated as Indian Hills Disposal, Inc)

Agencies Involved:

Updates

Date: 3/17/2016 **Status:** Reviewed - Follow-up Required

Author: O'Gorman, Brian

Updated Volume:

Notes:

According to the report, .25 gallon of hydraulic fluid was released along the right-of-way of Highway 85. More follow-up needed.

Date: 4/21/2016 **Status:** Inspection

Author: O'Gorman, Brian

Updated Volume:

Notes:

Arrived at GPS location at 18:15. 70 degrees F, sunny, light winds. GPS location was along the fenceline south of 45th Street. Did not observe any disturbed soils or petroleum impacts. Drove east to an area where excavation equipment was sitting and a pipeline right-of-way (ROW) had recently been refilled and landscaped to the original shape. Walked the ROW area and did not notice any petroleum-stained soils. No further follow-up needed at this time.
